DETAILED ACTION

Claims 1-3 are pending.

This application is a divisional of application number 10/082160 filed on 02/26/2002, now U.S. Patent No. 6,713,885.

Information Disclosure Statement

The information disclosure statement (IDS) submitted on 09/04/03 was filed on the same mailing date of the application. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

Reason for allowance

Claims 1-3 are allowed. The following is an examiner's statement of reason for allowance: None of the references of record teaches or suggests the claimed limitations having a semiconductor wafer fabricating method comprising the steps of providing a power supply for outputting a current, a voltage, or power necessary for the semiconductor wafer processing, a control microcomputer for setting strength of the power to the power supply and for setting the outputting of the output item to "on" or "off", and output sensing means for sensing the output item and for outputting an output sense signal according to a value obtained by sensing the output item, wherein if the output sense signal exceeds a predetermined threshold value when the outputting of

the output item is "off" (abnormal offset indication) , the processing is stopped for a subsequent semiconductor wafer to be processed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
